12. `.bg-secondary` → Gray background.

13. `.bg-success` → Green background.

14. `.bg-danger` → Red background.

15. `.bg-warning` → Yellow/Amber background.

16. `.bg-info` → Light blue background.

17. `.bg-light` → Light gray background.

18. `.bg-dark` → Black background.

19. `.bg-white` → White background.

20. `.bg-transparent` → Transparent background.

Spacing (Margin & Padding)

(m = margin, p = padding | t = top, b = bottom, l = left, r = right, x = left+right, y = top+bottom)

21.   `.m-0` → No margin.

22.   `.m-1` → Small margin.

23.   `.m-2` → Medium margin.

24.   `.m-3` → Larger margin.

25.   `.m-4` → Extra large margin.

26.   `.m-5` → Biggest margin.

27.   `.mt-3` → Margin top (size 3).

28.   `.mb-3` → Margin bottom (size 3).

29.   `.ms-3` → Margin start/left (size 3).

30.   `.me-3` → Margin end/right (size 3).

31.   `.p-0` → No padding.

32.   `.p-1` → Small padding.

33.   `.p-2` → Medium padding.

34. `.p-3` → Larger padding.

35. `.p-4` → Extra large padding.

36. `.p-5` → Biggest padding.

37. `.pt-3` → Padding top (size 3).

38. `.pb-3` → Padding bottom (size 3).

39. `.ps-3` → Padding left/start (size 3).

40. `.pe-3` → Padding right/end (size 3).

Layout & Display

41. `.container` → Fixed width container.

42. `.container-fluid` → Full width container.

43. `.row` → Creates a row for columns.

44. `.col` → Flexible column.

45. `.col-6` → Half width column (6/12).

46. `.col-12` → Full width column.

47. `.d-block` → Display as block.

48. `.d-inline` → Display as inline.

49. `.d-inline-block` → Inline + block element.

50. `.d-flex` → Display as flexbox.

51. `.d-grid` → Display as CSS grid.

52. `.d-none` → Hide element.

53. `.d-sm-block` → Show as block on small screens.

54. `.d-md-none` → Hide on medium screens.

55. `.d-lg-flex` → Flexbox on large screens.

56. `.justify-content-start` → Align items left.

57. `.justify-content-center` → Align items center.

58. `.justify-content-end` → Align items right.

59. `.align-items-start` → Align items to top.

60. `.align-items-center` → Align items to middle.

Text Utilities

61. `.fw-bold` → Bold text.

62. `.fw-normal` → Normal text weight.

63. `.fw-light` → Thin text.

64. `.fst-italic` → Italic text.

65. `.fst-normal` → Normal (not italic).

66. `.text-start` → Align text left.

67. `.text-center` → Align text center.

68. `.text-end` → Align text right.

69. `.text-uppercase` → Make text uppercase.

70. `.text-lowercase` → Make text lowercase.

71. `.text-capitalize` → Capitalize first letters.

72. `.lh-1` → Tight line height.

73. `.lh-sm` → Small line height.

74. `.lh-base` → Normal line height.

75. `.lh-lg` → Large line height.

76. `.text-wrap` → Allow text wrapping.

77. `.text-nowrap` → Prevent text wrapping.

78. `.text-truncate` → Truncate text with "…".

79. `.text-break` → Break long words.

80. `.small` → Small font size.

Borders & Radius

81. `.border` → Add border.

82. `.border-0` → Remove border.

83. `.border-top` → Top border only.

84. `.border-bottom` → Bottom border only.

85. `.border-start` → Left border only.

86. `.border-end` → Right border only.

87. `.border-primary` → Blue border.

88. `.border-success` → Green border.

89. `.rounded` → Slightly rounded corners.

90. `.rounded-circle` → Perfect circle.

91. `.rounded-pill` → Pill-shaped corners.

92. `.rounded-0` → No rounding.

93. `.shadow` → Small shadow.

94. `.shadow-sm` → Light shadow.

95. `.shadow-lg` → Large shadow.

96. `.w-25` → Width 25%.

97. `.w-50` → Width 50%.

98. `.w-75` → Width 75%.

99. `.w-100` → Full width.

100. `.h-100` → Full height.
